## **Courses Policy for AIU High School**

In AIU High School, you will take the listed courses below to complete your High School Program. If you have completed any of these courses in another institution, you would not have to repeat them, just send us your Transcript and the Academic Department will transfer them as soon as you make your enrollment payment to start the program.

When you finish your registration, you will receive your username and password to enter your virtual campus. Once you enter the campus, you will have access to the required courses of your program. Every course is divided by lessons. Each lesson contains study materials in the form of readings, audio and/or video files. Once you pass the exam with a grade of 65% or higher, you will have access to the next lesson. If you do not pass your exam, the Academic Department will unblock your exam within 24 hours on business days so that you can take the exam again. This way, you will be able to finish all of your courses from start to finish. You will always have the support from the Academic Department when it is necessary.

### **Required courses**
